

SOUTH CENTRAL KANSAS LIBRARY SYSTEM 2019 GENERAL TECHNOLOGY GRANT GUIDELINES

Grant guidelines have been revised and updated, so please read and prepare the application accordingly.

Contact the General Technology Grant Manager if you have any questions.

Priority is determined by earliest email / fax date

Eligibility Guidelines:

1. Only OFFICIAL SCKLS Application Forms will be accepted on or after the opening dates.
2. Your library has on-hand by the end of application round the required 50% cash match for the technology item requested.
3. School districts and Public Libraries with branches and Special Libraries with multiple facilities are single entities, so only ONE library per district, Public library with branches or Special libraries with multiple facilities will be awarded a grant per year.
4. You may receive only one General Technology Grant per calendar year. If you are not awarded a grant in the first round, you may apply for subsequent rounds.
5. No limit on number of item(s) requested, including eligible software licenses.
6. The technology item(s) must be for the library's use, be kept in the library, and be maintained and managed by the library staff. The items must be for the use of the library staff or available for use by all of their patrons.
7. The SCKLS General Technology Grant Manager makes the final determination if the item qualifies for the grant, and the Grant Manager may contact the librarian for more information if the purpose of the requested item(s) is not clear.
8. Quotes for standard computers and printers are now available on the General Technology Grant webpage. If you are using one of these standard quotes, you do not need to submit a copy of the standard configuration sheet. Should a library need a quote for an item not on this list, it is the responsibility of the librarian to contact an appropriate vendor or the General Technology Grants Manager to request the quote. Requests for quotes will be responded to in the order that they were received. An application must be accompanied by quotes in order to be considered complete.
9. The grant application must be filled out in its entirety. Failure to provide all of the requested information will delay the acceptance of your application, and a library's application will only be considered complete once all of the requested information has been provided.
10. If a library is awarded a grant, they must submit to SCKLS a copy of the final paid invoice for the item(s) requested by the deadline listed on the grant application page. Failure to follow and meet this and other grant guidelines and deadlines will result in ineligibility: bit.ly/ineligibility

**SOUTH CENTRAL KANSAS LIBRARY SYSTEM
2019 GENERAL TECHNOLOGY GRANT GUIDELINES**

Grant guidelines have been revised and updated, so please read and prepare the application accordingly.

Contact the General Technology Grant Manager if you have any questions.

Priority is determined by earliest email / fax date
